This is to certify that **Mr. Ramavath Ashok** (Roll No - BTECH/10476/21), a 4th-semester student of Computer Science and Engineering at Birla Institute of Technology, Mesra.

I have known Ashok since 2021. As his professor, I have been consistently impressed with his excellent grasping power and deep interest in the subject. He has been an intelligent and hardworking student, consistent in his efforts during his course of study in college.

I believe that he has tremendous potential as a student, and he would be an asset to both student life as well as academics at the esteemed university. He has 9 points out of 10 in programming for problem-solving (CS 101) i.e above 80 marks out of 100.

He has done a project on Machine learning on prediction of football team rating using Machine-learning regression algorithms, which is an advanced topic, compared to his academic activities. This shows his level of enthusiasm for new technology fields that help in solving real-life problems.

Wishing him the best of luck and hoping that he will succeed in all fields of life.

Sincerely,

Satish Chander
